1 year since successful implementation at Lancaster General Hospital in February 2025!

"Having the IC-CS Risk Calculator embedded within our EHR has allowed the tool to be folded into our patient care workflow. The risk assessment is a part of our twice-daily patient safety and quality huddle, and the scores often motivate crucial conversations around how to optimize outcomes for that patient."

Elle Trainor, CNM
Staff Midwife & Associate Director of Advanced Practice for OBGYN at LGH
